Sample Report

Sample Report

E-PERM® Electret Ion Chambers were used for short-term radon screening measurements that were conducted at the above referenced test site by: AmeriSpec Inspection Services

The Results are as follows:

Serial No.	Chamber	Type	Location	Test Start Date		Test End Date		Results (pCi/L)
SLU064	16	SST	First Floor	21-Dec-2020	9:00 AM	23-Dec-2020	3:00 PM	1.5
SLU241	16a	SST	First Floor	21-Dec-2020	9:00 AM	23-Dec-2020	3:00 PM	1.4

**Average Radon Concentration in: First Floor**

**1.4 pCi/L**

**Deployed By:** Jeff Ronzel 3300  
**Retrieved By:** Jeff Ronzel 3300  
**Analyzed By:** Jeff Ronzel 3300 **Reader S/N:** 0250 **Reader Calibration Due:** 09-Jan-2021  
**Conditions:** Requirements for Closed-Building Met  
**Tampering:** None Observed  
**Weather:** No Abnormal Weather Conditions  
**Vents:** Not Applicable / Fan Not Applicable  
**Mitigation:** No System Installed

Radon is the second leading cause of lung cancer after smoking. The U.S. Environmental Protection Agency (EPA) and the Surgeon General strongly recommend that further action be taken when a home's radon test results are 4.0 pCi/L or greater. The national average indoor radon level is about 1.3 pCi/L. The higher the home's radon level, the greater the health risk to you and your family. Reducing your radon levels can be done easily, effectively and fairly inexpensively. Even homes with very high radon levels can be reduced below 4.0 pCi/L. Please refer to the EPA website at [www.epa.gov/radon](http://www.epa.gov/radon) for further information to assist you in evaluating your test results or deciding if further action is needed.

The Radon Certification Act requires that anyone who provides any radon related service or product to the general public must be certified by the Pennsylvania Department of Environmental Protection (PADEP). You are entitled to evidence of certification from any person who provides such services or products. You are also entitled to a price list of services or products offered. All radon measurements will be sent to the Department as required in the Act and will be kept confidential. If you have any questions, comments or complaints concerning persons who provide radon related services please contact the Department at the Bureau of Radiation Protection, Department of Environmental Protection, PO Box 8469, Harrisburg, PA 17105-8469. (717)783-3594 or (800) 237-2366.

**This home is BELOW the 4.0 pCi/L (PADEP) radon level and a mitigation system is NOT necessary at this time.**
